

ASSESSMENT COVER AND FEEDBACK SHEET

ICTICT433 – Assessment 4: GUI iteration

Consisting of the following units of competence:

Grouping: Gaming Development		
Consisting of the following units of competence (UoC):		
National ID	State ID	Competency Title
ICTICT433		Build graphical user interface

Being delivered as part of the qualifications

Training Package Title and National Code:		ICT – Information and Communications Technology	
Qualification Title:	Certificate IV in Information Technology (Gaming Development)	Qualification State IDs:	AC17
Qualification National ID:	ICT40120		

Students to sign this document when submitting an assessment.

Due Date:	Week 7	Date Submitted:	
Assessment description	GUI Prototype		
STUDENT DECLARATION			
I have read and understand the details of the assessment.			
I have been informed of the conditions of the assessment and the appeals process.			
I agree to participate in this assessment.			
I certify that the attached is my own work.

TO THE STUDENT

Purpose of Assessment

Assessment must confirm the ability to:

- Iterate GUI design and build until test result meet requirements
- Obtain client signoff according to organisational procedures

What is Assessed

As detailed in the assessment plan.

Assessment Duration

Week 5 from commencement until Week 8

Allowable Materials

appropriate computer hardware and software

Required Resources

Access to Blackboard shell, Word processor, IDE, Game Engine and Internet

ICTICT433 – Assessment 4: GUI Iteration

Students are adjust the GUI design and build it. Students must then test the build. Students are the keep adjusting and rebuilding until build meets user requirements. **GUI must run on at least 2 different browsers as well as PC and mobile devices**

Part 1:

Students are to submit a document containing the following

- User Requirements of GUI
- List and describe each version built
- Explaining how the design changed in each version
- Sign off from lecturer for final build

Part 2:

Students are to submit the following

- Screen captures illustrating the working GUI
- Project files and code of all builds

Submit of the above in the assessment submissions area on Blackboard.

STUDENT FEEDBACK

Feedback will be given to you on Blackboard.

Comments

Assessor Name: Colton Onderwater

Satisfactorily Completed Yes No
